This is in response to "Renewed Petition Under 37 C.F.R. § 1.47(a)" filed on 26 July 2004.

DISCUSSION

On 25 May 2004, a decision on the petition filed on 05 December 2003 was mailed to counsel, dismissing the petition because it failed to establish either that non-signing joint inventor Tajima refused to sign the declaration, or could not be found or reached after diligent effort. The renewed petition is accompanied by new evidence, including an "Affidavit" signed by Hiroki Ejiri. This affidavit describes the circumstances under which a declaration and a copy of the application were sent to Yutaka Tajima, and that Yutaka Tajima orally refused to sign the declaration in a telephone call on 12 July 2004. Based on the totality of evidence now of record, it would now be appropriate to grant relief under 37 CFR 1.47(a).

CONCLUSION

The petition is **GRANTED**.

The Application Division and the International Division are authorized to accept the application as a 37 CFR 1.47(a) application and to mail a filing receipt. The application will be given an international filing date of 26 November 1999 under 35 U.S.C. 363. The date of this application under 35 U.S.C. 371(c)(1), (2) and (4) is **28 January 2002**.

As provided in 37 CFR 1.47(a), a notice of the filing of this application will be forwarded to the non-signing inventor at his last known address of record.

A notice of the filing of the application under 37 CFR 1.47(a) will be published in the Official Gazette.

The application is being returned to the International Division for processing as the U.S. National Stage of the above-identified international application.
